

Smart Mobile Phone Sticker

Custom designed for Mobile phone

The mobile phone sticker enables consistent and reliable performance on mobile phone surfaces. Achieving RFID on metal is often a challenge and can result in lost data and inconsistent performance. However, with this special purpose encapsulation, metal detuning can be controlled.

Specifications

- **Material:** PVC (with adhesive tape)
- **Protocol:** ISO14443A(Mifare) or ISO15693(ICode2)
- **Dimension:** 51.3 x 27.7mm, 55 x27mm, 35 x 35mm, etc
- **Surface finishing:** Canvas surface, Crystal decoration
